

**DIGEST OF CURRENT ECONOMIC STATISTICS, AUSTRALIA
SEPTEMBER 1983**

- PHONE INQUIRIES** *for more information about these statistics and other inquiries, including copies of publications—contact Information Services on Canberra (062) 52 6627 or any of our State offices.*
- MAIL INQUIRIES** *write to Information Services, ABS, P.O. Box 10, Belconnen, A.C.T. 2616 or any of our State offices.*

EXPLANATORY NOTES**Introduction**

The Digest contains the latest available figures at the time of issue for a selection of monthly and quarterly series. Where possible, series are shown both in their original and seasonally adjusted form.

Seasonal adjustment

2. Measures of variability and details of the methods used in seasonally adjusting ABS statistics are given in Appendixes C and B, respectively, of *Seasonally Adjusted Indicators, Australia* (1308.0). This annual publication also contains historical original and seasonally adjusted data in tabular and graphical form of a selection of the statistics appearing in the ABS monthly and quarterly publications.

3. As well as being adjusted for normal seasonal factors, some of the statistical series included in the Digest have been adjusted for the effects of calendar variations, namely, 'trading-day' effects (arising from the varying numbers of Sundays, Mondays, Tuesdays, etc. in a month) and the influence of movable holidays, such as Easter and Australia Day.

4. Most of the original and seasonally adjusted series are preliminary and subject to revision.

Related publications

5. More detailed information is available in the *Monthly Summary of Statistics, Australia* (1304.0) (\$3.10). Publications from which the series in the Digest are derived are listed on page 8.

6. Current publications produced by the ABS are listed in the *Catalogue of Publications, Australia* (1101.0). The ABS also issues, on Tuesdays and Fridays, a *Publications Advice* (1105.0) which lists publications to be released in the next few days. The Catalogue and Publications Advice are available from any ABS office.

Symbols and other usages

- r figure or series revised since previous issue
 - p preliminary—figure or series subject to revision
 - n.a. not available
 - n.y.a. not yet available
 - break in continuity of series (where drawn between two consecutive figures in the same column)
7. Where figures have been rounded, discrepancies may occur between sums of the component items and totals.

R. J. CAMERON
Australian Statistician

(a) The Average weekly earnings per employed male unit has been replaced by a new series based on a quarterly survey of employers. Figures for 'all males' prior to September quarter 1981 are estimates based on the relationship of the series for September quarter 1981. An explanation of the linking of the series is given in *Average Weekly Earnings, Australia, December Quarter 1981 (Preliminary)* (6301.0), and an explanation of the differences between the series is provided in an *Information Paper* (6336.0). (b) New series. See *Ward Rates of Pay Indexes, Australia, September 1982* (6312.0). (c) Results of sample surveys of government employers and private payroll taxpayers conducted by the ABS as at the third Friday of the month shown. For further details see August issue of *Overtime, Australia* (6330.0). (d) With the introduction of the tenth series of the CPI, the reference base of the CPI series has been changed to 1980-81 = 100.00. The main CPI series published becomes that for the weighted average of the eight capital cities. Monthly index series are no longer compiled for the food group. (e) New grouping introduced from March quarter 1982. Base of index series: March quarter 1982 = 100.0.

(a) The ABS has recently implemented a new system for collecting, compiling and publishing building activity statistics. For further details of the change to 'Building commenced' data, see September Quarter 1980 (Advance Release) issue of 8705.0, released on 1 May 1981. For further details of the change to 'Dwellings commenced' data, see statement (issued under Catalogue No. 8703.0) entitled *Changes to Published Building Activity Statistics*, which was released on 12 December 1980. (b) Weighted average by State capital cities, 1966-67 = 100.0. (c) Base: 1979-80 = 100.0. (d) Prior to December Quarter 1982, data include the value of speculatively built construction projects by enterprises in the finance, property and business services industries. (e) Excludes enterprises classified to agriculture, forestry, fishing and hunting, community services and construction.
